The Glow Squad are 6 astronauts with special abilities from the planet Glow, handpicked to explore other planets in need of 'light'.

Their mission? To make Earth a better place by teaching children how to overcome darkness. The audience influences the plot – collection of 'glow' delivers them sense-stimulating rewards.

Children connect with these fantasy characters, often seeing themselves reflected in their personality traits and values – self-belief, strength, love, teamwork. This unique experience creates a safe space for all audience members – kids and adults – to express their inner glow.
